Vision India is delighted to Present 5th Edition, Outsourcing Ventures 2008 Pune. Success Story: of "Outsourcing Ventures" series 2004, 2005, 2006 & 2007 at Pune

### Knowledge Process Outsourcing

KPO is the buzzword in corporate corridors, setting pace for outsourcing companies to move up the value chain.

KPO - can be simply defined as an off shoring of knowledge intensive business processes and services that require specialized domain-based expertise. Knowledge Process Outsourcing is an explosively growing market globally. Take advantage of this explosive new growth area.

Large numbers of technical institutions are churning out lakhs of graduates in science, engineering, architecture, management, accounting and medicine thus giving India the edge and the numerical advantage in terms of having a sizeable talent pool that is immediately employable. India has the world's largest English speaking populations.

"OSV 2008 Pune" is designed to be exclusive, to network, talk about the challenges, opportunities, success stories, hot growth areas, critical success factors for a BPO/KPO to scale up to next level. "OSV 2008 Pune" aims at bringing together best of intellectuals, insiders, entrepreneurs and industry pioneers. Panel discussions will talk about being competitive, new way of doing business.

"OSV 2008 Pune"- Summit Composition comprises of keynotes, panel discussions, case studies, branding, experience sharing and networking opportunities.
